• URAR :

PURPOSE & SYNOPSIS

Since not every subject property can be compared to "ideal" comparable sales, the appraiser has chosen the best sales available from the market search which meet investor underwriting standards and guidelines. Every effort to has been made to conform to FNMA and FHLMC underwriting guidelines and in most bases, to an even stricter interpretation found common to most investors in the secondary market.

The comments in this addendum are intended to expand on what the appraiser feels are areas of most concern to mortgage investor and/or the owner(s) of the appraised property in underwriting an appraisal report. The expanded comments allow the appraiser to provide additional comments where sufficient space is not available on the appraisal form. The market has been thoroughly searched and the sales reported herein are in the appraiser's opinion, the best sales available that properly weigh the four (4) major elements of comparison. The four (4) major elements of comparison are (1) Location, (2) condition of Sale; (3) Time of Sale; and (4) Physical Characteristics of the subject and the Comparables.

SCOPE OF THE APPRAISAL

In order to estimate the subject property's market value, as of the date of the appraisal, a systematic procedure has been followed to reach a logical final value conclusion. Every effort has been made to conform to the code of ethics of the Appraisal Institute. The National Association of Real Estate Appraisers, FHLMC underwriting guidelines and additional requirements of investors in the secondary market. Of the three (3) approaches to value, the sales comparison approach and the cost approach are relied upon most to estimate the subject's market value.

Upon receiving the appraisal order, county assessor's records are researched to obtain basic property information such as the last sale date and price, lot size, zoning assessments, utilities present, real estate taxes, census tracts and other pertinent data as required in the appraisal report. Then the local multiple listing service is consulted to research the subject property. If available, recent sales, contract sales and current available listings in the subject's subdivision and immediate market area that are most similar to the subject property are obtained. An appointment is then set up to inspect the exterior or interior of subject property. The appraiser the n visually insects the exterior of the comparables selected that are most similar to the subject property.

The comparables selected for use in the report are, in the opinion of the appraiser, the best available after investigation of the sales activity in the subject's market area. Adjustments in the sales comparison approach are estimated based on market extraction and/or reaction of a particular item, its effects on value and are not based on cost figures. Negative (-) adjustments in the sales comparison approach reflect items that are superior to those found in the subject property. Positive (+) adjustments reflect items inferior to those found in the subject property. Comparable sales data are adjusted to the subject property, with the subject property as standard in terms of which of the comparable sale properties are evaluated and adjusted. The adjusted sales prices are reconciled to a final indication of the market via the direct sales comparison approach.

Upon completion of the sales comparison analysis, the appraiser develops the Cost Approach, using the Marshall & Swift Cost Handbook, local builder cost and estimate guides, and other pertinent residential cost information to arrive at the reproduction cost new of the subject property. Depreciation is estimated by the appraiser which takes into consideration the effective age of the subject property and its remaining economic life and any functional or external obsolescence extracted via matched pair analyses. Any depreciation is subtracted from the estimated reproduction cost new of the subject property. To this depreciated cost, the value of the site, as if vacant and available to be put to its highest and best use, is added to obtain a value via the Cost Approach.

If enough information is available, the Income Approach is developed using gross rent multiplier analysis (GRM). GRM analysis requires a substantial quantity of reliable, verified data on market sales or comparable properties that were rented at the time of the sale to estimate the market rent. Typically, in this market there is insufficient available information on single family properties to estimate the value by the Income Approach.

After analysis of the only (1) approaches to value, he direct sales comparison approach, the appraiser logically reconciles all the approaches to value of arrive at a final estimate of property value (market value) as of the valuation date. It should be the best, most probable figure obtainable under current market circumstances. The final value estimate is rounded appropriately to emphasize the fact that it is an estimate.

It was necessary to include comparable sales that are located more then one mile from the subject. The comparables chosen are the best available that have similar utility, construction, design, style, and effective age. The sales dates are reflective of current market conditions. Based on appraisal practice with emphasis placed on weighing the elements of comparison (location, date of sale, physical characteristics of site, improvements, and condition of sale), the sales chosen represent the elements of comparison. The comparables utilized are from within the elements of comparison and the comparables are similar from competing sub-divisions of similar market appeal and locational factors.

The address on the flood map is W street, however it suitable for subject location.

NOTEURAR :**

THIS ADDENDUM IS DESIGNED AS AN ADJUNCT TO THE FNMA FORM 1004 FOR THE REPORTING OF COMMENTS MOST TYPICALLY REQUIRED BY LENDERS TO CLARIFY ASPECTS OF THE APPRAISAL PROCESS. AN "X" IN THE BOX NEXT TO A PARTICULAR PHRASE INDICATES THAT THIS APPLIES TO THE INDIVIDUAL APPRAISAL BEING PERFORMED. PHRASES NOT CHECKED DO NOT APPLY TO THIS INDIVIDUAL APPRAISAL.

IT IS NOTED THE PRICE PER sq. ft NUMBER FOR SALE (s) NO.(s) VARIES BY MORE THAN \$10 PER SQ. FT. COMPARED TO THE SUBJECT, BUT THE SALES CHOSEN ARE CONSIDERED THE BEST AVAILABLE. THE DIFFERENCES IN ON-SITE AMENITIES INFLUENCED THIS RATIO.

OF APPRAISAL DATE CREATES ARTIFICIAL RESTRAINTS NOT FOUND IN THE OPEN MARKETPLACE. THIS APPRAISER WILL NOT PASS OVER THE BEST POSSIBLE COMPARABLE SALE IN ORDER TO USE ONE THAT IS LESS COMPARABLE, THOUGH OF A MORE CURRENT DATE.

() IT IS NOTED THAT NET ADJUSTMENT FOR COMPARABLE SALE(S) NO. EXCEED(S)

5. THIS ADJUSTMENT IS LARGER THAN NORMAL BUT THE SALES CHOSEN ARE CONSIDERED THE BEST AVAILABLE. OTHER SALES ANALYZED WOULD HAVE REQUIRED LESS DESIRABLE ADJUSTMENTS AND WERE NOT USED FOR THAT REASON.

() THE FOLLOWING CERTIFICATION APPLIES TO NEW CONSTRUCTION APPRAISALS: "I HAVE PERSONALLY REVIEWED THE PLANS AND SPECIFICATIONS OF THE SUBJECT PROPERTY AS WELL AS INSPECTED THE EXTERIOR OF THE COMPARABLE SALES."

() SITE IMPROVEMENTS: WITH THE EXCEPTION OF THE STREET, IT IS THE APPRAISER'S EXPERIENCE THAT NEITHER THE PRESENCE NOR LACK OF SITE IMPROVEMENTS HAS ANY EFFECT ON VALUE OR MARKETABILITY.

(X) NO ITEM THAT HAS ANY NEGATIVE EFFECT ON VALUE WAS NOT DISCLOSED ON THE FORM

(X) AS A RESULT OF THE CURRENT FHLBB MEMORANDUM R-41, YOUR APPRAISER HAS NOTED IN THE APPRAISAL REPORT CERTAIN CHATTELS WHICH ARE CONSIDERED NON-REALTY ITEMS. THE CONVEYANCE AND INCLUSION OF THESE ITEMS IS TYPICAL OF TRANSACTIONS IN THIS MARKETPLACE.

(X) THE APPRAISER HAS REVIEWED THE FFLBB MEMORANDUM R-41C, ANND IS THE OPINION THAT THE APPRAISAL OF THE SUBJECT PROPERTY CONFORMS TO THE BANK BOARD MEMORANDUM.

(X) THE INCOME APPROACH WAS DEEMED INAPPROPRIATE AND THEREFORE, WAS NOT CONSIDERED FOR THIS TYPE OF PROPERTY.

() COMPARABLE SALES ARE LOCATED IN THE SUBJECT SUBDIVISION, BUT SALES OUTSIDE THE SUBDIVISION ARE NOT CONSIDERED APPROPRIATE AND THE SALES CHOSEN ARE THE BEST AVAILABLE.

A THOROUGH SEARCH FOR COMPARABLE SALES WAS MADE IN AN ATTEMPT TO FIND SALES WHICH BRACKET THE FINAL VALUE ESTIMATED FOR THE SUBJECT PROPERTY. AFTER CONSIDERATION OF LOCATIONS, DATES OF SALE AND PHYSICAL DIFFERENCES IN THE APPRAISER'S JUDGEMENT, THE COMPARABLES USED ARE THE BEST INDICATOR OF THE SUBJECT'S VALUE.

NOTE: IF THE PHOTOGRAPHS USED IN THIS APPRAISAL ARE DIGITAL PHOTOS UTILIZING IMAGING TECHNOLOGY, THE APPRAISER CERTIFIES THAT HE/SHE PERSONALLY INSPECTED THE COMPARABLES UTILIZED IN THIS REPORT AND FURTHER CERTIFIES THAT THE PHOTOGRAPHS USED IN THIS REPORT ARE TRUE AND CORRECT REPRESENTATIONS OF THE SUBJECT SITE AND THE COMPARABLE SALES, AND ANY DEFECTS HAVE BEEN NOTED AND ADDRESSED.
