INTRODUCTION

The Government of the District of Columbia (the "District"), through the Department of Housing and Community Development's (DHCD) Property Acquisition and Disposition Division ("DHCD") is releasing this Request for Proposals ("RFP" or "Solicitation") as it seeks to receive project proposals (each a "Proposal" and collectively "Proposals") from individuals and/or teams (each a "Respondent" and collectively "Respondents") for the development of the parcel identified by the District of Columbia Tax Assessor's Office as Square: 5228, Lot: 0044 (the "Development Site") (see Figure 1: Development Parcel Map).

DHCD, through this Solicitation, shall award the available Development Site to a developer for the purpose of planning, financing, building and managing a mixed-income for sale, housing development. In 2022, Mayor Bowser launched the Black Homeownership Strikeforce¹ and announced a goal of 20,000 new black homeowners by 2030. This RFP seeks to push towards that goal by increasing the available homeownership opportunities in the District while also continuing the push to meet the District-wide housing goals of producing 36,000 new units, of which 12,000 will be affordable across ten planning areas, set by Mayor Bowser through the 2019 Housing Equity Report. More information is available at: <https://housing.dc.gov/>

Furthermore, DHCD is excited to offer this development opportunity with a focus on equitable inclusion and looks forward to working together with the development community to produce affordable homeownership opportunities in the District of Columbia.

NEIGHBORHOOD CHARACTERISTICS

The Development site is located in the Northeast Boundary neighborhood, one of the eastern most neighborhoods in Washington, D.C., bounded by East Capitol Street to the south, Nannie Helen Burroughs Avenue to the north, and the Maryland border to east. The neighborhood is primarily residential, with a combination of semi-detached and single-family homes. The area has commercial activity along East Capitol Street at 53rd Street SE, on Dix Street NE, and at the corner of Central Avenue SE and Southern Avenue and the future Capitol Gateway development will add to this vibrancy. Vacant sites in the area can support infill housing to support that growth. The area is home to Marvin Gaye Park and the Watts Branch Trail while the Capitol Heights Metro is just over the Maryland border.

SITE CONDITION

As-Is Condition

The Development Site shall be conveyed in “as-is” condition, without representation or warranty by the District as to physical or environmental condition of the land or any existing structures.

ZONING

The zoning information listed herein is for informational purposes only. PADD makes no representation as to the accuracy of any zoning information. Respondents should review all applicable District zoning regulations while preparing their Proposals, including Title 11 of the District of Columbia Municipal Regulations (DCMR) for a complete list of zoning provisions and requirements.

The zoning regulations are available on the Office of Zoning (OZ) website (www.dcoz.dc.gov). Information on any proposed zoning changes is also on the OZ website or may also be obtained from the District's Office of Planning (<http://planning.dc.gov/planning>). This website may also contain city and neighborhood revitalization plans relevant to this RFP. All proposals must be consistent with the appropriate plans. Respondents must demonstrate this consistency through their narrative and by using relevant land use maps.

HISTORIC PRESERVATION

Development site may be subject to the District's Historic Landmark and Historic District Protection Act of 1978 (D.C. Law 2-144), as amended, and/or the National Historic Preservation Act of 1966, as amended. The District's historic preservation regulations are available on the Historic Preservation Office/Office of Planning website (www.planning.dc.gov/hpo), including information on the required compliance with DCMR Title 10C for both historic preservation and archaeology. The development plan and budgets should note any associated cost items for historic preservation and archaeology review and assessment.

COMPREHENSIVE PLAN

The Comprehensive Plan “Comp Plan” is a high-level guide that sets a positive, long-term vision for the District of Columbia through the lens of its physical growth, equity, and change. The 2021 Comp Plan update will allow the District to meet challenges and opportunities in critical areas such as housing and economic recovery with a focus on equity and resilience.

The Comp Plan includes policies and actions that set priorities for the District's land use, public services, infrastructure, and capital investments. The Comp Plan guides the use, density, and design of buildings within the District, directly shaping the city's physical form as it changes and develops in the future. The Comp Plan is used by District agencies, residents, businesses, developers and other critical stakeholders to help guide growth and change toward a positive future both for today's residents and future generations.

The *Comprehensive Plan for the National Capital: District Elements*, the Comprehensive Plan Generalized Future Land Use Map (FLUM) and the Comprehensive Plan Generalized Policy Map are the legislatively adopted general policy documents that provide guidance for the future development of the District of Columbia and serves as the basis for determining how areas within the City can be developed as related to design, density, and program.

The Development Site is located within the Far Northeast and Southeast Area Element. The Far Northeast and Southeast Area Element encourages the protection of established neighborhoods, but also recognizes a need for a variety of housing and retail choices. Targeted policy guidance for the area also includes the following:

- **Policy FNS-1.1.1: Conservation of Low-Density Neighborhoods.** Recognize the value and importance of Far Northeast and Southeast's established single-family neighborhoods to the character of the local community and to the entire District. Comprehensive Plan and zoning designations for these neighborhoods reflect and preserve the existing land use pattern while allowing for taller and denser infill development that is compatible with neighborhood character.
- **Policy FNS-1.1.2: Development of New Housing.** Encourage new mixed-use, mixed-income development for area residents on vacant lots and around Metro stations and on underused commercial sites along the area's major avenues. Strongly encourage the rehabilitation and renovation of existing housing in Far Northeast and Southeast and seek to ensure that the housing remains affordable for current and future residents.
- **Policy FNS-2.5.1: Northeast Boundary Neighborhood.** Leverage the development of Capitol Gateway Estates to achieve additional reinvestment in the Northeast Boundary neighborhood, particularly the rehabilitation of existing housing and the development of new mixed-income family housing on vacant lots.

COMPREHENSIVE COMMUNITY DEVELOPMENT MODEL

In 2021, the Office of Planning (OP) in conjunction with the Deputy Mayor for Planning and Economic Development and the Coalition for Non-Profit Housing and Economic Development released the Comprehensive Community Development Model (CCDM), a community-led strategy to support neighborhood development in the east end of Ward 7. Driven by a network of residents and community stakeholders, the CCDM offers shared principles for community investment in Deanwood, Burrville, Capitol View, Northeast Boundary, Lincoln Heights, and Richardson Dwellings. These shared principles are supported by a broad range of recommendations—policies, programs and practices—addressing key issues in housing, economic and workforce development, health and wellness, and youth development.

Driven by a network of residents and community stakeholders, the goal of the CCDM is to ensure that longstanding residents are protected, and that prosperity gained from increased investment flows to all residents. To advance the kind of development that reflects residents and community members desires, the CCDM offers shared principles for community investment. These principles, taken together, help ensure that all residents benefit from the opportunities that new development can bring. These include:

Principle 1: Prioritizing community-driven decision-making and ownership in investments

- Reorient development process for new housing and economic development projects towards community needs, interests, and benefits
- Raise the standards for community benefits of new development

Principle 2: Protecting current residents and small businesses from displacement

- Increase homeownership and community ownership of land
- Increase density
- Right size rental housing

Principle 3: Advancing economic opportunities for all residents and

- Embed workforce development into youth activities
- Enhance workforce capacity and train for skills of the future
- Create employment opportunities to fulfill basic community needs
- Develop vacant or public spaces for entrepreneurs, small businesses and resident's professional development

Principle 4: Building healthy, safe, opportunity- rich neighborhoods that reflect residents' history and culture

- Enhance youth activities;
- Support the food ecosystem;
- Enhance accessibility of outdoor activities and recreation facilities for all;

- Bridge the digital divide;
- Invest in resident-driven art and culture

Respondents are encouraged to incorporate the CCDM principles in their submissions.

Pre-development Cost

All funds expended by the Respondent in responding to this Solicitation, and in performance of due diligence and pre-development work during negotiation with the District shall be at its sole cost and expense. Under no circumstance shall the District be responsible for the reimbursement of any such cost even if the parties do not execute an agreement or proceed to closing or if the project is not successfully completed.

Development Cost

Respondent shall be solely responsible for projecting all pre-development (including possible demolition of existing improvements, environment remediation costs, historic preservation reviews, and other site preparations) and project development costs to include design, construction, and post construction services to be included as part of the budget submission.

PADD Offer Requirement

Respondents should offer the fair market value, based on the District's appraisals of the Development Site (the "Offer Price"). Respondents should provide documentation for funding commitments, and their Proposals should evidence a significant amount of "at risk" capital during the pre-development and development process. PADD is seeking Offers that require the least amount of subsidy (either through the District agreeing to receive less than fair market value for the Development Site or through other District or federal public financing tools) to fill anticipated financing and/or investment gaps in the Project's capital structure.

SECTION 7: FINANCIAL CAPACITY AND FRAMEWORK

Each Proposal shall contain a statement of proposed financing, which should include the development cost budget, amount and sources of debt, and equity financing. The Respondent should include documentation of all financing and/or investment commitments, terms and covenants, as well as the availability of said funds. Respondents shall not include funds from the District operating or capital budget (unless appropriated for such purpose on a multi-year basis) or unidentified Federal funding in its funding plan.

The commitment and strategy to develop and implement a local apprenticeship program shall be in accordance with D.C. Official Code §32-1402, et seq.

SECTION 9: COMMUNITY BENEFIT

The District is committed to maximizing community benefits for its residents. In view of this commitment, Respondents must present:

- Their overall concept and vision for the Development Site and how the vision will integrate with and enhance the surrounding neighborhood;
- An approach that ensures the meaningful involvement in the development process by

stakeholders and members of the local community who might be affected by the Respondent's proposed development;

- A detailed description of the post-award approach and strategies to working with the community and stakeholders to ensure their meaningful involvement in the development process.

Evaluation Criteria

All project proposals that contain detailed responses to each proposal category that is clear, concise, comprehensive, and complete will be competitively evaluated based on the following evaluation criteria, established in accordance with federal and District law and the District's housing priorities and needs.

Evaluation Criteria	Potential Weight
Development Team Capacity	20
Past Performance	20
Development Plan	20
Project Budget	20
Financial Capacity	20
Total	100
Additional points will be awarded to Proposals that incorporate the following priorities:	
Inclusive and Equitable Housing	
Family-Oriented Units	10
Wealth Building Opportunities	10
Mixed-Income Level Served	10
Innovative and Community-Oriented Features or Programming	
Non-Profit Participation	5
Resilient Buildings and Innovative Design	5
Resident or Community-Oriented Amenities	5
Workforce Development and Certified Business Enterprise Participation	5
Up to 50 points	

EVALUATION CRITERIA

Development Team Capacity

Respondents must have the development team in place and provide complete information and documentation on its members. At a minimum, the following team members must be identified:

- Owner (including all parties involved in the partnership or limited liability company, as applicable)
- Guarantor(s)
- Developer
- Development or Financing Consultants (if applicable)
- Architect
- General Contractor
- Construction Manager (if applicable)
- Management Agent

- Resident/Supportive Services Provider (if applicable)

The Respondent will be evaluated on the proposed project team's qualifications and technical competence. The availability and experience of the key personnel and staff assigned to this project will be evaluated as part of this evaluation factor. If the Respondent is a team or a joint venture of multiple companies, the evaluation panel ("Evaluation Panel") will consider the experience of each member of the team or joint venture and its relevance in its identified role in the proposed team or joint venture. Development team members may not have had an award terminated by DHCD within the past three (3) years, and the proposed property management company must not have received an unsatisfactory rating from DHCD or HUD.

Past Performance & Experience

Evaluation of past performance allows the District to assess the Respondent's ability to perform the services with a high degree of overall customer satisfaction and the extent to which the Respondent has performed work of comparable complexity, function, and scope with timeliness in service delivery in the past five (5) years. The Respondent will be evaluated on how well the proposed project team's skill sets have been used to complete similar projects on time and on budget. For purposes of this paragraph, comparable shall mean: (i) design and construction projects involving scope, size, and budget similar to this project; (ii) Respondent's familiarity with local and federal regulatory agencies and processes and their requirements. The relevance of the information, source of information, context of the data and general trends in the Respondent's performance shall be considered.

Development Plan

This evaluation factor considers how the Respondent has demonstrated its understanding of the nature of the work related to the design development, construction services, and project management to successfully apply and commit to timely delivery.

Construction Schedule

The Respondent will be evaluated on the proposed development plan that clearly demonstrates the completeness of the construction schedule, including all major tasks and subtasks, dependencies, critical path items, and a demonstration of how the Respondent will meet the schedule to complete the Project successfully.

Project Budget

This factor considers how the Respondent demonstrates maximizing funds in a design-build project. The Respondent must include information on both the design and construction cost of the project.

Financial Capacity

The proposed budgets should be realistic and viable but demonstrate maximum leverage of non-DHCD funding and minimize the gap funding request. The assumptions and figures should be consistent throughout the Proposal, consistent with market data and any supporting documentation, and follow the instructions and guidance issued by DHCD through this Solicitation and any subsequent questions and answers ("Q&As") published through the Online Application

System.

Projects that have proposed uses that are associated with dedicated third-party funding sources must include those sources in the Proposal. Letters of interest with terms and conditions are submitted from multiple lenders and investors (at least two, but no more than three) for each proposed financing source, to demonstrate competitiveness of private loan terms. If multiple alternative financing scenarios are presented, letters of interest must substantiate each scenario. Lender and investor letters must be recent enough to reflect current market conditions and describe the project (for example, income mix) exactly as it is being proposed to DHCD.

Respondents should pay special attention to DHCD's cost and funding guidelines that apply to all projects, which include formula caps on the following:

- Developer Fee
- Builder's Profit
- Builder's Overhead
- General Requirements
- Architect Design
- Architect Administration
- Construction Management
- Development/Financing Consultants

Respondents may exceed the construction and operating cost guidelines, but doing so will negatively impact their project evaluation. Construction cost waiver requests should emphasize any additional sources of funding that the project is leveraging to offset the additional costs.

Family-Oriented Units (Up to +10)

This criteria is evaluated based on the percentage of two and three-bedroom units proposed for a project. Respondents can achieve maximum points if at least 30% of the affordable units have three or more bedrooms.

Wealth-Building Opportunities and Advancing Racial Equity (Up to +10)

Preference will be awarded for projects that incorporate wealth-building opportunities for project owners or development team participants who are designated as a Disadvantaged Business Enterprise (DBE) or Resident-Owned Businesses (ROB) by the D.C. Department of Small and Local Business Development (DSLBD), or who are led or controlled by individuals designated as socially disadvantaged under the Small Business Administration (SBA) definition.

Non-Profit Participation (Up to +5)

Applicants can achieve maximum points for a project in which a 501(c)(3) Qualified Non-profit Organization materially participates (that is, has an ownership interest and decision-making role) in the development and operation of the project.

Resilient Buildings and Innovative Design (Up to +5)

Projects that exceed the minimum Green Building Design and commit to achieving one of the specific certifications defined below will receive preference under this criterion:

Maximum points will be awarded to projects that meet the following:

- Enterprise Green Communities Plus including Criterion 5.4 Achieving Zero Energy.

Partial points will be awarded to projects that meet one or more of the following criteria:

- Enterprise Green Communities Plus (new construction buildings less than 50,000 sf)
- TRUE Zero Waste Certification
- Building Electrification (no on-site combustion)
- 1.7-inch stormwater retention
- Whole Building Life-Cycle Assessment (LCA) Supported Low-Embodied Carbon Design (see guidance from LEED v4.1 Building Life-Cycle Impact Reduction credit)
- Enterprise Green Communities Criterion 5.10 Resilient Energy Systems: Critical Loads
- Mass-Timber Construction
- Universal Design Standard (e.g. DeafSpace Architecture)
- Modular Construction

Any project claiming points in this criterion category must demonstrate the capacity and experience to achieve certification, and to incorporate the innovative features specified. The architectural plans and project budgets (development and operating) submitted in the Proposal must reflect the commitment to certification and the features described.

Resident or Community-Oriented Amenities (Up to +5)

Preference will be awarded to projects proposing high-quality, comprehensive, property-wide resident services designed to improve the quality of life of residents, empower residents, and support broader community-building goals. Preference will be awarded to projects that will provide specific, targeted resident services that tie into proposed project amenities including, but not limited to, the following categories:

- Training and Educational Programming – Academic and Economic Empowerment (e.g. job/vocational training, skill-building activities, tutoring/educational assistance for youth or adults, financial literacy training, credit counseling, homeownership/wealth-building

education)

- Training and Educational Programming –Environment, Health and Wellness (e.g. health initiatives, nutrition workshops, wellness/recreational activities, art and cultural activities, green living education, counseling services)
- Resident Involvement and Organizational Capacity-Building (e.g. cooperative board training program, tenant association participatory role/ownership interest, legal and financial services, other enrichment/community-building activities)
- Onsite Daycare Services (e.g. before/after school care, early childhood care)

Community amenities should be integrated into the resident services plan, the architectural plans, and be consistent with the services proposed for the site. Preference will be awarded to projects that contain amenities including, but not limited to, the following:

- Playground
- Daycare/Preschool
- Community/Multi-purpose Room
- Fitness Center
- On-site Grocery/Farmers Market/Food Provision/Garden

Respondents can achieve maximum points by proposing a comprehensive and financially sustainable resident services plan that is specifically tailored to the needs of the project and its resident population, and thoughtfully integrates complementary project amenities. In addition, maximum preference is given to projects that utilize sources of funding outside the project (e.g. fundraising) or reserve a portion of developer fee to pay for proposed services.

Workforce Development and CBE Participation (Up to +5)

Preference will be awarded to projects that commit to exceeding the minimum workforce development and Certified Business Enterprise (CBE) requirements. Projects must submit a detailed plan as to how they will comply with the additional commitment. Points will be awarded for projects that commit to one or more of the following:

- a local apprenticeship program in accordance with D.C. Official Code §§ 32-1401 et seq that exceeds the minimum apprenticeship hours worked by DC residents by 10% or more;
- exceeding the District's First Source Hiring requirement by 10% or more; or
- Certified Business Enterprise (CBE) participation of 50% or more.

Respondents can receive maximum points in this section by committing to all three of the above options and providing sufficient evidence of exceeding minimum requirements in one or more cross-cutting programs (i.e., CBE, Section 3, First Source) in at least one project completed within

the last three years.

Respondents that were developers for projects with problematic past performance across any cross-cutting hiring and contracting-related programs (i.e., CBE, Section 3, or First Source) are not eligible for these points.

Evaluation Preference

EQUITABLE DEVELOPMENT FOCUS

Mayor Bowser has charged her entire administration with ensuring every Washingtonian gets a fair shot. The Mayor recognizes that the District is a powerful tool for investing in the economic vitality of residents and neighborhoods. As the District of Columbia continues to grow and change, the District's investments and decisions will continue to play an important role in shaping the future of our city and providing opportunity to those who have historically been locked out of prosperity. Building the District of Columbia into a more inclusive and equitable city will not happen by chance, it will be the result of intentional decisions that are designed to overcome long-standing inequities, that reflect our shared DC values, and that provide Washingtonians across all eight wards every opportunity to rise.

In the interest of advancing access to opportunities to manage meaningful development activities, DHCD has designated this project as an instance to serve the dual purpose of promoting economic activity and facilitating equitable access to the opportunities afforded by development projects. Equitable access to meaningful opportunities for development, project management, and delivery is a critical pathway towards ensuring that the District's growth reflects diverse needs and equitably benefits residents.

The District intends to take deliberate steps to assist small, local, and disadvantaged businesses and people to, not just participate in larger opportunities but, build the capacity necessary to lead and manage those opportunities in the future.

EQUITABLE INCLUSION PRIORITY

In the District's efforts to advance equitable access to opportunities to manage meaningful development activities ("Equitable Inclusion Priority"), DHCD will prioritize Proposals that maximize, by leadership and/or inclusion, individuals who are either:

- Black Americans.
- Hispanic Americans.
- Members of other groups for which a rebuttable presumption exists that the individuals are socially disadvantaged (13 C.F.R. §124.103(b)(1)); or
- Socially disadvantaged as established by a preponderance of the evidence (13 C.F.R. §124.103(c))

Further, DHCD will prioritize Proposals that maximize, by percentage of ownership and control, entities that are either:

Development Funding Guidelines

DEVELOPMENT BUDGET

Total development costs include the following: (1) expenses related to the actual construction or rehabilitation of the project; (2) fees related to the construction or rehabilitation such as architecture, engineering and legal expenses; (3) financing fees and charges such as construction interest, taxes, and insurance. Total development costs do not include hard or soft cost contingencies or developers' fees.

CONSTRUCTION COSTS

The construction or rehabilitation costs for projects must be within a reasonable range for the scope of work proposed. Construction or rehabilitation costs include all work, including site development, associated with the physical development of projects, together with the builder's overhead and profit, but not including architectural and engineering costs or other fees related to design and permitting. The project's per square foot costs are obtained by dividing the amount of the construction or rehabilitation contract by the gross square footage of the buildings to be constructed or renovated. The construction contingency should not be factored into this equation.

Contingencies

All projects should include contingency amounts for construction and "soft cost" line items. The expected construction contingency ranges are: five (5) percent to ten (10) percent for new construction, with the higher contingency amounts for smaller or less experienced contractors and those with environmental or other construction uncertainties. The soft cost and financing contingency is expected to range from 5 percent - 8 percent of soft costs and financing costs.

Limitation on Fees

Fees in the development budget are limited according to the following standards established by DHCD.

Architect, General Contractor, and Construction Management Fee Limits	
Category	Limitation
Builder's Profit	5% to 10% of the net construction cost
Builder's Overhead	2% to 3% of the net construction costs
General Conditions/Requirements	5% to 10% of the net construction costs
Architect Design & Administration	3% to 9% of the construction contract*
Construction Management	1% to 2% of the construction contract*

*excluding contingency

Net Construction Costs

Net construction costs are equal to the construction contract amount less builder's profit, builder's overhead, general requirements and bond fees.

Builder's Profit

A builder's profit is permitted even if a relationship or identity of interest exists between the developer and general contractor. However, all general contractors must meet DHCD guidelines and be approved to act as a general contractor for the project. The allowable profit must range from 5 percent - 10 percent of the net construction costs.

Builder's Overhead

Allowable builder's overhead must range from 2 percent - 3 percent of the net construction costs with the lower percentage applicable to larger projects and the higher percentage to projects of lesser amounts.

General Conditions/Requirements

The allowable general requirements are determined based on the size of the project. General requirements must range from 5 percent - 10 percent of net construction costs.

Architect's Fees

The allowable architect's fee for project design ranges from 2 percent - 6 percent of the construction contract amount. For architectural administration, the allowable fee range is from 1 percent - 3 percent.

Construction Management Fee

The allowable construction management fee range is from 1 to 2 percent of the construction contract amount.

Fees for Development Consultants or Other Professional Services

Fees for Development Consultants or professional services other than those listed here (for example, financing consultants, green building consultants, etc.) must be priced competitively. DHCD will scrutinize proposed fees and compare to data from comparable projects in the proposal review.
