Greg	Vendena	co-owner	co-lab studio	4708 Seminole	Detroit	MI	48214	313-921-9410	vendena@co-labstudio.org	Master of Architecture	Greg Vendena has, for more than 15 years, researched and applied greenbuilding principles to various projects in different circumstances. Since 2004, he has co-owned <i>co-lab studio</i> , the only firm in Detroit that specializes in Integrated Sustainable Design - which incorporates greenbuilding. (see website for more information: www.co-labstudio.org) This firm has completed many projects related to greenbuilding, including landscape and residential design, community planning, and consulting work. The firm has also developed a post-occupancy performance and sustainability analysis tool for commercial and residential facilities. The report includes recommendations for energy efficiency (an energy audit), water efficiency, site and landscape, indoor environmental quality, pollution prevention, and materials. co-lab	Greenbuilding Design/Build Energy Efficiency
John	Harrington	Green Communities Program Officer	Greater MN Housing Fund	332 Minnesota St, Suite 1201	St. Paul	MN	55101	651-221-1997	jharrington@gmhf.com	Certified as a Housing Development Finance Professional from the National Development Council Certificate of Completion for the LEED-NC Technical Review Workshop	John Harrington is a Program Officer focusing on Green Communities developments for the Greater Minnesota Housing Fund. He has more than thirty years public and private sector experience with land use planning and development, program and project management and implementation. He has served as Senior Project Coordinator in Minneapolis specializing in brownfield redevelopments and neighborhood-focused Transit Oriented Development; was Vice President of an environmental planning firm, responsible for the socio-economic and land use impact analyses of a number of environmental assessments and impact statements; and served as special assistant to the Chair of the Twin Cities Metropolitan Council. He previously managed the Twin Cities Metro Council's water pollution control program where he was responsible for ensuring consistency between local comprehensive land use plans and regional	Green Building

Rachael	Jamison	Green Building Coordinator	Washington Department of Ecology	300 Desmond Drive SE	Lacey	WA	98502	(360) 407-6352	riam461@ecy.wa.gov		Rachael Jamison coordinates Washington Department of Ecology's Green Building Program. In this capacity, Rachael works with public agencies affected by Washington's green building legislation (Chapter 39.35D RCW), non-governmental organizations that encourage green building, and other groups whose missions support green building. To ensure Washington's legislation is successful, Rachael designed a charrette facilitation program for public projects. She worked with Cascadia Region Green Building Council to provide on-going Build-It-LEED trainings to contractors working on public projects. She is an advisor to the roll-out of the Washington Sustainable Schools Protocol. And she's working with the Housing Trust Fund on developing a strategy for implementing the Evergreen Standard for Affordable Housing. Rachael is working to build demand for green homes and commercial buildings through her work with organizations including CRGBC, BuiltGreen.	
1 Sandra	Mallory	Project Architect	Environmental Works Community Design Center	402 15th Avenue East	Seattle	WA	98112	206-329-8300x18	smallory@eworks.org	U.S. Green Building Council LEED Accredited Professional	Sandra is a Project Architect at Environmental where, in addition to her design work, she works to expand and promote the organization's green building capacity. She spearheaded the LEED process for Traugott Terrace in Seattle, the first LEED certified affordable housing project in the country. She is Project Architect on Kateri Court, a mixed-use affordable housing project recently completed in Bellingham, WA. The project is currently being submitted for a LEED Gold rating.
